## CHAPTER 1 DORIAN'S PROFILE

Dorian was a human being from Hawaii. He researched sea turtles and loved them so much that he discovered a way to become a half-turtle-half-human. Although he had a shell on his back and green skin, he was very handsome and attractive. He was 200cm tall. Dorian decided to open a shop where the customers could get transformed into animal-people.

## CHAPTER 2 HIS SHOP AND A LOT OF MONEY

He opened the shop. The shop's name was "Animal Friendly Shop" . He sold animal transformations and food and houses. They were very cheap. People who bought his products said , "It's so good and useful." Many people visited his shop. He got a lot of money. He became popular.

One day, he thought, "If I got a lot of money, I could buy many things." This is why he worked very hard. After a month, he earned more money. His shop was very successful. He was very happy.

## CHAPTER 3 A RIVAL APPEARS

Then, one day, his life changed drastically when a rival store opened next to his shop. His rival's name was Toruzo-san, and he was a hunter. He really wanted to get Dorian's shell because he could get enough money to live off for 100 years if he sold it.

He came to Dorian's shop every day and hunted animals around the shop. As a result, the number of customers decreased. After a few days, Dorian decided to counterattack. First, he took off

his shell and put it on the floor of the shop. Toruzo-san , the hunter, came the shop and saw the shell. He touched the shell, but it was a trap.

When he touched the shell, it triggered the animal transformation process and turned Toruzo-san into a chihuahua. Dorian decided to keep Toruzo-san as a pet and renamed him “Toranaizo-chan”. Toranaizo-chan was still evil and angry, but he couldn’t hurt Dorian anymore.

## CHAPTER 4 HAPPY DORIAN

Without his rival, Toruzo-san, the hunting store was forced to close. A few of the employees tried to save the shop, but they all mysteriously disappeared. Dorian’s shop became very popular again and he made a fortune off selling animal transformations. He used the money to build a turtle sanctuary that protected thousands of turtles and eventually became a world-class research center. Eventually, ¼ of the world population became animal-humans, and global warming became a major focus, leading to the reversal of climate change.

*—After years of hard work, he finally achieved his dream  
and  
lived happily ever after with his chihuahua, Toranaizo-chan—*

\*Toranaizo-chan

## ABOUT THE AUTHORS

### *Yuki*

I was in the charge of Chapter1 and turned the character into green. I am so glad to be in this team.

### *AKI48*

I wrote the third page of this story. I am very proud to have create this story with my team members.

### *Naoma*

I wrote the second page of this story. I am so good to be in this members.

◀I took this picture.

### *Rose Garden*

I was in charge of advising the team and editing the story. I also helped with story conclusion. I hope that you enjoyed our story!

## Case 2: Mr. Tanaka

A STORY OF A MAN WHO

# SAVED THE WORLD

# FROM ZOMBIES

*—This is the story of*  
*a young boy's journey to success —*

**Cheer**

**Harry**

**Cat Lover**

**Lyra Bellaqua**

**January 11, 2025**

# CHAPTER 1 BEGINNING OF MR. TANAKA'S BUSINESS

Mr. Tanaka was a college student who studied medical science. He was 20 years old. He wanted to make medicine for many people. Actually, he got a serious disease 10 years before. Thanks to new medicine, he was cured of the disease.

So, he decided to start a company which produced medicine. The company's name was Miracle Cure Medicine Company, MC<sup>2</sup>. MC<sup>2</sup> produced a medicine called Miracle Cure™ that could treat everything.

But after starting MC<sup>2</sup>, he faced a problem. He needed an excellent doctor to continue his research. One day, he heard rumors about a special doctor. He got some information about the doctor. He knew that the doctor's name was Mr. Kobayashi, and he was somewhere near Tomakomai!

# CHAPTER 2 MR. KOBAYASHI IS IN LAKE SHIKOTSU

Mr. Tanaka found Kobayashi in Lake Shikotsu. He was older and smarter than Tanaka. Actually, he was 60 years old and had a 350 IQ. (Tanaka has a 300 IQ.) But he hated people. Because of this, he lived there like the hermit of the Lake.

Mr. Tanaka scouted Kobayashi for MC<sup>2</sup>, and Mr. Kobayashi joined MC<sup>2</sup>. Tanaka hoped he would be a good scientist and thought to promote him. But it didn't go the way he expected...

## CHAPTER 3 MR. KOBAYASHI'S MISTAKE

Mr. Kobayashi became one of the most productive and innovative researchers. But maybe he was too innovative.

Out of curiosity, he tried to make a medicine which makes people gods. But making god's medicine is prohibited in the field of medicine. So, when he was making that medicine, he accidentally made a zombie virus. He was so upset that he tried to conceal the evidence. So, he ate the zombie virus and he became the first zombie ever.

In another word, he became the king of zombies who can increase the number of zombies and can't control himself. When Mr. Tanaka found them while

shopping at Aeon, it was too late because there were a lot of zombies in the town. Unfortunately, animals are no exception, and "Toranaizo-chan" has been turned into a zombie dog.

## CHAPTER 4 THE BATTLE OF THE ZOMBIES

He had a hunch that Mr. Kobayashi had been meddling with god's medicine. So, Mr. Tanaka always carried a blowgun filled with miracle cure™. He spent many hours dodging zombie bites, making his way from Aeon to the heart of the laboratory area in MC<sup>2</sup>. The number of zombies increased as Mr. Tanaka was getting closer to the MC<sup>2</sup> building. Mr. Tanaka tried to hit the other zombies with the miracle cure™ but they were too fast and dodged.

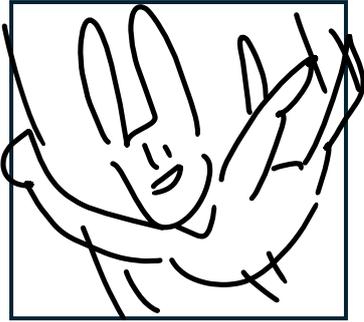

But finally, he managed to find Mr. Kobayashi and hit him with his trusty blowgun, injecting him with miracle cure™. This cured all the MC<sup>2</sup> staff, and everyone rejoiced! However, they were a little sad that they had to go back to work, so Mr. Tanaka gave them all a week of vacation.

*—After years of hard work, he finally achieved his dream*

*and lived happily ever after—*

## ABOUT THE AUTHORS

### ***Cheer***

Hometown: Ebetsu  
Hobby: watching ice hockey

## Case 3: Alex

# **The Energy Revolution Or Magical Princes' Fairy Tale**

*—This is the story of a young boy's journey to success—*

**Eunice**

**Wolf**

**Big tie boy**

**Pepsi man**

**Israel Black**

**January 11, 2025**

## CHAPTER 1 MAGIC ENGINEER

—In 2100, in Texas, America, there was a student who discovered magic power. His name was Alex.

Finally, I could create energy from my hand! I decided to call this **Lexmagic**. In my experiments, this power could turn on a small light. I thought that with this power, anything might be possible. So, I established a company called Lexmagic.

At this time, I had a girlfriend, Julia. She was one of the most excellent engineers in America and I thought she will be the best employee of my company. I thought that if this business is successful, I would propose to her.

When I showed my special power to her, she said in surprise, "Wow! That's very nice technology. Using this power, we can create more useful products for people. You are a genius." I was happy to be praised by her. And then, as magic engineers, Julia and I started further research into Lexmagic.

## CHAPTER 2 BUILT POWERPLANTS

The results of the research showed Lexmagic could generate a lot of electricity. I developed a powerplant to harness it. It generated far more power than other powerplants.

I first built small powerplants. It generated plenty of electricity. So, it was very successful. I got lots of money and I built the next powerplant bigger. I repeatedly built them and got more money because of my success. I could build the powerplant in many places around the world.

Lastly, over time all the world's energy was produced by my powerplants. **By that time, I was a Millionaire.**

## CHAPTER 3 FORGETTING HIS GIRLFRIEND'S PRESENTATION

My girlfriend had a new idea for a company. She wanted to make rockets to go to space as a new product. We needed cooperation from other companies, so she scheduled a presentation to show her ideas. But I forgot and went to a party the night before. I overslept. I hurried to her presentation. However, I was too late.

The presentation was a disaster, and I made her angry. I tried giving her the very popular and hard to get Namerou's skin lotion as a gift, but it didn't work. She was not the kind of woman to be lured in by something like that. She disappeared without a trace. I lost all hope.

## CHAPTER 4 THE MOON ARE OUR OWN JUST FOR TONIGHT

After a month, she was still angry that I was absent from her presentation about the magical rocket. So, I decided to bring her to the moon. The rocket wasn't meant to go to the moon, but I decided to give her it as a surprise. However, it was difficult because I couldn't borrow the skill of the wisest engineer in my company. When I woke up the first morning after I came up with the idea, I thought it was a silly. But I was reminded of the great things I did before. I began to draw blueprints by myself like when I started the magical power plant business. An engine, controller, connector...

The spacesuit had to endure the moon's extreme climate; I formed a Chemical department to imitate dragon leather's scientific property. And to solve the global lack of gold and silver for magical circuitry, I researched alchemy.

Finally, I decided it was enough to do the plan. I invited her to go for "just a drive". I still remember the night vividly. The moon was far and far above from us. The more time closed on

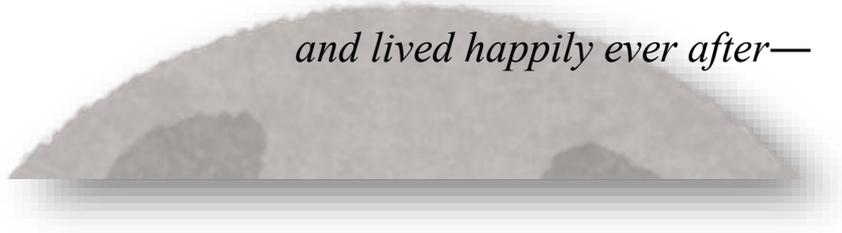

launch time, the more my heartrate rose.

I didn't tell her anything, but she understood what we would do. The magic engine started producing energy, and the rocket swayed a little. After a moment, our rocket was floating over a huge cloud, the atmosphere and out of earth's gravity... now we could see brighter stars than the stars we usually could see. The main engine stopped combustion, and we were on the surface of the moon. I gave her a ring. "Earth is beautiful tonight, inn it?"

*—After years of hard work, he finally achieved his dream*

*and lived happily ever after—*

## ABOUT THE AUTHORS

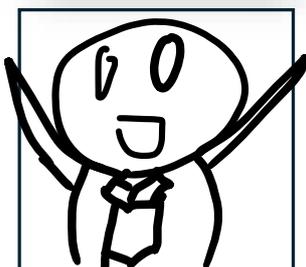

### *Eunice*

I was born at foot of Mt. Yotei.  
I love winter and skiing.  
I'm learning chemistry.

### *Wolf*

I live in Hokkaido city  
I like playing video game and coding  
My motto is challenge anything

### *Big tie boy*

I am in Slytherin.  
I like video games.  
Killer move I like is 「Split Ball」

### *Pepsi man*

A rustacean from Eniwa.  
I'm making games on Godot with a team, xe-Non.  
I can't survive without Pepsi cola.

### *Israel Black*

I live in the secluded mountains of Alaska.  
I do blacksmithing for a living.  
My motto is "Ok is never enough."

## Case 4: Taro Yamada

# Mr. KOSEN

*—This is the story of a young boy's journey to success—*

**Ms. Dam**

**Little green woman**

**Shumidt. S**

**January 11, 2025**

## CHAPTER 1 TARO YAMADA'S EVERYDAY LIFE

In the year of 3000, KOSEN has already spread around the world. All the countries around the world have a KOSEN. For example, there are Katmandu KOSEN, Alaska KOSEN, and Ethiopia KOSEN in the world.

Then, there is a super clever student in Tomakomai KOSEN. His name is Taro Yamada. Taro is clever, but he is lazy, so always in great trouble.

He doesn't want to finish a lot of assignments in KOSEN. He wants to have them finished with the least amount of time and energy. It's because he wants to spend his time on his own favorite activities.

## CHAPTER 2 INNOVATIVE PLAN

Therefore, he makes automatic report-writing program. This program works well, so it needs only 3 minutes to finish even the most difficult assignment, which he used to spend 3 hours finishing.

This program is very useful, so many students want to use his program. His classmate, Mr. Tanaka, also wanted to use the program (he was a super student who would later start up the Miracle Cure Medicine Company, MC2). Taro decided to sell his program to other students secretly for teachers. Students from all over the world buy it. And of course, Dorian that lives in Hawaii is no exception.

## CHAPTER 3 THE SECRET KNOWN TO...

One day, he is asked to come to the principal room. There is principal, YOKO, SAORI, and SHUHEY, who are clever teachers in KOSEN. The principal said Taro, "I know your secret. Why do you think you are all here?"

Yoko said Taro that "I know that you create the application for writing report."

Saori said seriously, "Thinking yourself is more important than making perfect report."

Shuhey also said “All the report students no knowledge no skills no ability”

He decides to stop the application business.

## CHAPTER 4 HOW TO USE SKILLS

### CORRECTLY

He make the new application. Its name is “For your teacher”. This application gives not answers but hints for report. So it is helpful for teachers to develop students’ skills and ability. Not only students but also teachers buy it. Teachers use this application so that students can keep on studying by themselves. Thanks to it, students can finish their reports by developing their ability. Teachers can have fewer lessons to teach students and then they are enjoying their lives.

Taro gets big money. He is happy because students and teachers are happy. He hope everyone become happy, so he donate big money for poor children who want to learn more.

He called “Mr. KOSEN”, that mean he is great educator.

*—After years of hard work, he finally achieved his dream*

*and lived happily ever after—*

## ABOUT THE AUTHORS

### *Ms. Dam*

I am standing on the side of a high mountain. Nearby a clear stream flow, and a large lake is formed by me. My motto is "Immovable as the mountain."

### *Little green woman*

Hometown: Somewhere in the universe  
Personality: Easy to believe  
Hobby: Gather with my friends  
Motto: We are waiting for hand of God

### *Shumidt. S*

Hometown: Budapest, Hungary  
Personality: Picky and choosy  
Hobby: Retro-item collector  
Buying a new wristwatch makes me feel uplifted.  
Sour flavor makes me feel down.  
My motto is keep you chin up and tomorrow is just another.

## Case 5: Matsushita Masayoshi

# **The Road Cleaner**

*—This is the story of*

*a young boy's journey to success —*

**JOJO**

**TakaRyo**

**Moai Kazu**

**UTA**

**Arthur**

**January 11, 2025**

## CHAPTER 1 TWO FRIENDS MEET

One day, there was a cool young student. His name was Matsushita Masayoshi. He was the son of Alex and Julia of Lexmagic fame. He was 18 years old, so he was a university student. He was learning about how things move. He lived in Hiroshima. He went to buy a roomba at Yamada Denki because he was living alone and didn't want to clean his room. But his bicycle tire got a flat from a nail on the road and he had to walk his bicycle the rest of the way to Yamada Denki.

When he arrived there, he met a man. That man's name was Ippai Mizukara. He was a Yamada Denki employee. He told Masayoshi a lot of information about the roomba. He became friends with Ippai soon. They were always together then.

## CHAPTER 2 STARTING A NEW COMPANY

Masayoshi started designing a new type of Roomba. This Roomba could clean ceilings, floors, and walls. It knew where to go by using a camera. So, he was able to invent a powerful new type of Roomba.

One day, he was searching on the Internet and had a conversation with a friend and found out about a robot contest named "cleaning robot contest". To have a chance to win the contest, he made a lot of prototype robots. Then, he won the robot contest with his new Roomba. At the same time, he bought a ticket and won the lottery too!

So, he decided to contact his friend from Yamada Denki, Mizukara Ippai. He remembered the day his bicycle was damaged by the nail on the road. His newest idea was a Roadba to clean all the roads. So, he and his friend started a company. The company was a big success. He was the president and Mizukara was the vice-president.

## CHAPTER 3 MASAYOSHI'S FALL INTO A TRAP

He grew up to become a great president and kept his popularity for ten years. However, not everything was good. He fell into a trap because of his friend's illegal actions.

Masayoshi was betrayed by a trusted subordinate. What happened to him was that everything was stolen. He had his Roadba, his money, and idea stolen. First, Ippai Mizukara, his friend from 20 years ago, stole money and spent a lot of money to play online games. Second, his colleague also stole his Roadba design and his money from his financial room. Furthermore, even the Namerou's skin lotion, a very popular item that I had finally managed to get my hands on, was stolen. This shocked Masayoshi and he fell to the ground with an unhappy face.

Also, one day, he couldn't even do his job and was absent from his office. Of course, his friends, co-workers, other colleagues, and part time workers worried about him. However, as the same time, he realized that it wasn't the end of his life. There must be another chapter in the story, and some way to survive existed.

## CHAPTER 4 ENJOY GOING

### OUTSIDE

He decided to go to court! It was time to sue Ippai. In the court, he faced Mizukara who was not worried. Mizukara thought that Masayoshi didn't give him enough money. But Mizukara betrayed him illegally. Other workers helped Masayoshi to find the evidence. Then two years later, he won in court.

After the court ruling, he increased wages for his workers. And he released a new version of Roadba. This

new Roadba was sold all over the country. Almost 70% of the roads in the country were cleaned by it. Now he is loved by many cyclists, drivers, and other people who use the road. By cleaning up the road, he succeeded.

Finally, he said to everyone in the world, “Instead of playing online games, you should go outside!”

*—After years of hard work, he finally achieved his dream  
and lived happily ever after—*

## ABOUT THE AUTHORS

### ***JOJO***

Born in Kyoto. I love traveling and exploring. Thinking about the next adventure makes me feel uplifted. My motto is "Never stop exploring".

### ***TakaRyo***

Born in Hokkaido University.

I like playing and watching baseball, going to cycling, playing Shogi (Japanese chess), studying programming, and so on. I like Es Con Field Hokkaido very much and have been there 5 times. I also like all-you-can-eat and hot spring.

I'm a funny and strange person.

My motto is "To continue is important and just go straight is my way".

I'd like to see you again soon!

### ***Moai Kazu***

My hometown Tottori.

My hobby is traveling.

My personality is shy.

My motto is don't worry.

### ***UTA***

My hometown is Thai.

My hobby is eating food.

My motto is calm down.

### ***Arthur***

My hometown is Chicago.

My hobby is skiing.

My motto is believe in yourself!

## Case 6: Namerou

Namerou's  
"Numenume" Impact  
~How Slime Saved the World?!~

*—This is the story of*

*a young girl's journey to success —*

**Shopy**

**Honosan**

**January 19, 2025**

## CHAPTER 1 AWARE OF RAINBOW SLIMY

One day, a female sea cucumber named Namerou realized that her shimmering, rainbow-colored slime had incredible health benefits.

Unlike the regular slime produced by other sea cucumbers, Namerou's secretion seemed to enhance not only skin but also boost intelligence and physical abilities.

This discovery came when her friend fish tried using Namerou's slime and found that she could swim faster and think clearer than ever before her life. Her word of mouth spread quickly, and soon other creatures began to take notice.

## CHAPTER 2 NAMAKO MOVEMENT

Not only in the ocean, Namerou's skin lotion spread in the human world in no time. It all started with one influencer. After she uploaded a video about Namerou's skin lotion a lot of influencers began to introduce it. Because of that Namerou became person of the moment and rich. There are many Ads about Namerou's skin lotion at downtown. It was also advertised at the hugely popular "Animal Friendly Shop" around the world and Namerou's company had been experiencing steady growth.

Namerou's slime have expanded beyond the sea into the human world. Namerou's product was used as a tool to unlock untapped potential in the mind and body by human.

## CHAPTER 3 CHAOS IN HUMAN WORLD

However, this sudden surge in popularity led to unexpected consequences. More and more people started using the product, society began to descend into chaos due to the overwhelming

abilities and erratic behaviors caused by the slime's effect.

First, their intelligence increased dramatically, leading scientists to propose mathematical formulas and theories that threatened to disrupt the order of the universe. Second, individuals began believing that they were omnipotent and started declaring themselves independent nations. Third, their physical activities became superhuman, leading to uncontrollable riots and violence beyond any authority's control.

The chaos grew, and it became clear that the lotion's effects were too powerful for humans to handle, threatening to destroy society and nature.

## CHAPTER 4 SLIMY'S ABNORMALITY

As the chaos escalated, researchers started to research deeply into a mystery of Namerou's rainbow slime. Among those researchers was Mr. Kobayashi, who was so smart (IQ 350) that he created the zombie virus. What they discovered shocked everyone. The slime contained not natural ingredients but trace of an unknown alien organism.

This organism, called Numeranians had been parasitizing Namerou. Their aims are to conquer the Earth and eventually use them as an intergalactic army to colonize planets across the universe. Namerou is so surprised and sad, because Namerou knows that a lot of people suffer from her skin lotion business.

Fortunately, Dr Mendacos one of the researchers knows solution. He said "Alien's abilities are not as high as humans. If they notice that they can't parasitized completely they run away". Namerou made up her mind.

## CHAPTER 5 DECISION

To free human from the alien invasion, Namerou agreed to a drastic solution that he would expel all of his rainbow slime using a specially designed extraction device, “NumenumeTore-ru-X”. This would kick out the Numeranians from his body and remove their domination on humanity.

Despite the pain and the risk of losing her unique abilities, Namerou activated the machine. She endured excruciating process. She knew that it was the only way to save both the sea and human world.

As the last drop of rainbow slime was expelled, Numeranians were forced to retreat, their plans were thwarted. Namerou, now free of the alien parasite, thought days of making miraculous slime were over.

## CHAPTER 6 BECAME FAMOUS AS "NAMAKO CORPORATION"

Finally, Namerou remove all the slimy, but her slimy revival immediately. Because she is just sea cucumber. Then, her slimy starts to shine golden. Namerou’s slimy regained its true brilliance. Upon investigation, it was discovered that it had purely extraordinary beauty benefits with no side effects. In this way, she developed a new product, and it became a huge success.

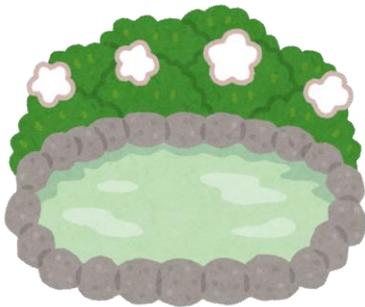

In the end, Namerou’s “Namako corporation” achieved great success, becoming one of the leading cosmetic companies in the world.

Namerou’s journey brought harmony to

two worlds. Her brave decision showed that even the small creature can make the big difference. As his golden slime became the symbol of hope, forever bridging the gap between humans and the sea. Namerou became a living legend.

*—After years of hard work, she finally achieved her dream  
and lived happily ever after—*
